RHODES IS DEAD

Great Factor in South Africa's Development Is Now No More.

THE FINAL OBSTACLE

Having Literally Removed Mountains In His Day Cecil Rhodes Could Not Put Off Death.

The End Came In a Simple Seaside Cabin Where the Great Magnate Breathed His Last.

Cape Town, Mar. 27.—Cecil Rhodes died yesterday, aged 49 years. Mr. Rhodes was conscious until 5:55 p. m., when he muttered a few words and sank quietly. The immediate cause of his death was two successive attacks of heart failure. At his bed-

CECIL RHODES.

side were Dr. Jameson, Dr. J. W. Smartt, the commissioner of public works; Colonel Elmhurst Rhodes, director of signalling of the South African field force, and Mr. Walton, a member of the assembly of Port Elizabeth.

Mr. Rhodes' last words were the names of his brother and some of the others present, which were meant to be good-byes. The only person who attended him during his illness and who was not present at his deathbed, was Dr. Stevenson; all the others, his boys and personal servants, were admitted at the last.

The body was taken to Groote-schuur, the residence of the deceased near Cape Town, on a special train today. There it will probably lie in state for a day or two and the public will be admitted to view the remains. It has not yet been determined where he will be buried. It was the wish of Mr. Rhodes to be interred at Matopopo Hills, Rhodesia. The government has decided to give Mr. Rhodes a public funeral. His remains will be brought here from Groote-schuur for the burial service, which will be held in the cathedral. The body will then be taken back to Groote-schuur and will eventually be interred at Matopopo Hills.

Since Mr. Rhodes took to his bed three weeks ago his friends had been most anxious that he should recover sufficiently to be taken back to England. The cottage where he died was a simple seaside cabin, small and close to the railroad. It was ill-fitted to be a sick chamber, although the utmost was done to improve the ventilation and make it more comfortable. Dr. Stevenson slept by his patient every night, that he might be in readiness to administer oxygen, which practically kept Mr. Rhodes alive. Last Sunday he lost all interest in everything and since then he dozed the hours away. His rally from the crisis of Tuesday left but the faintest hopes for his ultimate recovery. These were entirely abandoned with the renewed attack at noon yesterday.

The news of his death spread through Cape Town between 7 and 8 o'clock last evening and caused profound grief. All places of amusement were immediately closed. An open air concert was stopped, and the audience uncovered while the band played the "dead march." The people then silently dispersed.

Fair British Estimate.
London, March 27.—In an editorial on Cecil Rhodes, the Times says: "With all his undeniable faults and the errors which marked his noblest work, Cecil Rhodes stands an heroic figure, around which the traditions of imperial history will cling."

His Final Trip.
Washington, March 27.—General Leonard Wood left here last night on his last visit to Havana in the capacity of military governor of the island of Cuba. General Wood said he expected to depart by boat from the city of Havana at 12 o'clock on May 20, after the new government had been installed and the Cuban flag saluted. At the same time 1,200 American troops would vacate the island by way of Havana and 400 would go from Santiago.

The Exclusion Bill.
Washington, March 27.—The report of the house committee on the Chinese exclusion bill filed yesterday says that the committee are unanimous in the opinion that the admission of Chinese laborers into this country would be a serious evil. Every endeavor has been made to report an act which will secure the exclusion of Chinese coolies.

HANNA IS JUBILANT

Head of Civic Federation Averts Threatened Miners' Strike.

New York, March 27.—There is no likelihood of a strike in the anthracite coal district this year. The miners have formulated their demands and the operators will probably meet them half way. The announcement was made last night upon the best authority after Senator Hanna's conference with J. Pierpont Morgan and the threatened trouble will be averted mainly through the efforts of the two men who were the chief factors in settling the big strike in the presidential campaign of 1900.

Senator Hanna is one of the most earnest advocates of the cause of arbitration, and he presented the situation from his viewpoint with such force that Mr. Morgan was convinced that the operators should yield a point. Mr. Morgan is in control of some of the coal roads and is in a position to decide upon the course of action to be taken without reference to any other coal magnates. He sees no particular objection to recognizing the United Mine Workers of America, as the union is called, through his signing of contracts with the individuals employed, especially if the present wage scale can be maintained for another year. He does not believe that the union is particularly strong with the miners. He will agree to terms that he deems reasonable and Senator Hanna was jubilant when he left him, being convinced that the strike would be averted.

ABOUT OVER

Captured Filipino General Says Insurrection Is Crushed.

Manila, March 27.—Norie, the only insurgent general with the exception of Malvar still in the field, has been captured by Lieutenant Frank E. Bamford of the 28th infantry.

A major, a captain, a lieutenant and five men, who were acting as a bodyguard to Norie, were captured with him. They have all been held as prisoners of war. There is some reason to believe that one member of this bodyguard is General Malvar in disguise. Lieutenant Bamford is certain that if this general is not one of the captured party, he is in the immediate neighborhood of the place of Norie's capture.

Norie has been one of the recognized leaders of the insurrection since 1899. He was captured on his way to the coast, while endeavoring to escape. He admits that the insurrection as such is over, and says that the few remaining leaders are fleeing, as they do not command enough men to warrant surrenders commensurate with their rank.

CHURCH AND STATE

Their Divorce In the Philippines Is Mgr. Sbarretti's Task.

Washington, March 27.—Monsignor Sbarretti, who has been chosen as archbishop of Manila to succeed Archbishop Norzagar, who retires voluntarily to Rome, called on Secretary Root yesterday on his way to Manila from Rome.

It is understood that the selection of Mgr. Sbarretti is made by the pope in recognition of the excellent services of the prelate in Cuba, where he succeeded in a task which up to that time others had failed to accomplish, and arranged a complete divorce of state from church to the entire satisfaction of both parties. He is to undertake a similar work in the Philippines, and he wishes to talk to the officials here before proceeding to his post. Naturally, the vexed question of the acquisition of the friars' lands by the Philippine government would be among the very first to engage the energies of Mgr. Sbarretti. But there is some indication that Archbishop Ireland and O'Gorman already have taken some part in the negotiations on this subject, and it is not certain that Mgr. Sbarretti will relieve them entirely of that task.

Prayers for Peace.

Rome, March 27.—The Osservatore Romano, the semi-official organ of the vatican, publishes an article said to have been written by the pope. This article calls upon Christians throughout the whole world to pray to God for the conclusion of peace between the noble British nation and the gallant Boers.

ELECTRIC CHAIR

That Is What the Jury Says Albert T. Patrick Must Take a Seat On.

THE EXTREME PENALTY

New York Lawyer Convicted of the Murder of Aged Millionaire Wm. Marsh Rice.

The Verdict Was Received By the Nery Lawyer With His Usual Stoicism.

New York, March 27.—Albert T. Patrick, lawyer, was last evening convicted of the murder on Sept. 23, 1900, of the aged millionaire reclusive, William Marsh Rice.

The penalty under the statute is death in the electric chair.

A scant three hours of deliberation at the close of a trial prolonged for nine weeks and replete with sensational interest, sufficed to enable the jury to reach their verdict. The issue of the trial establishes the charge that Patrick conspired with Mr. Rice's valet, Charles F. Jones, to obtain possession of the aged Texan's estate, estimated at \$7,000,000, and that Jones killed his employer by the administration of chloroform at the direct instigation of Patrick.

At the close of Recorder Goff's charge, which occupied the morning session of the court, the jury retired. This was at 1:50 p. m. At 5:55 they notified the officer in charge that they were ready to return to court, rather more than an hour of the intervening time having been devoted to luncheon. In anticipation of a scene of excitement in the event of a verdict of guilty, the unusual step was taken of ordering all women to leave the courtroom. Among them were the prisoner's two sisters and Mrs. Francis, with whom he boarded.

With grave faces the members of the jury filed into their places, and some minutes of painful tension elapsed while messengers were endeavoring to find the counsel, who had departed, not expecting a verdict for many hours. Calm as ever and with confidence seemingly unshaken, the prisoner was escorted into the courtroom. He walked rapidly and took his stand facing the jury with head erect and hands loosely clasped behind his back. At the word "guilty," pronounced by Foreman MacCall in a tone low but distinct enough to be heard throughout the court, not the slightest change passed over Patrick's face, and he remained standing in an almost listless attitude while the customary roll of the jury was being taken. His aged father, Captain Patrick, sitting near him and straining to catch the statement of the foreman, started for an instant as its import reached him, and then sat calmly awaiting the further proceedings.

A smile of triumph lit up the face of Assistant District Attorney Osborne, who hastened from the court immediately after Recorder Goff had, at the request of the prisoner's counsel, fixed on a week from Monday as the day on which to pronounce sentence. The verdict was known almost immediately in the corridor where the women relatives and friends of the prisoner were waiting, and a scene of excitement ensued. Screaming hysterically, the prisoner's eldest sister ran about the corridors, begging to be allowed to see her brother. Mrs. Francis fainted and on recovering broke from the attendants and rushed into the courtroom, from which Patrick had just been removed. There she again swooned. Both women were removed to an ante-room and were sent home in a carriage.

Captain Patrick, after taking leave of his son, who was then led back to the Tombs, would only say: "It is hard; we'll have to try again."

None of the jurors could be induced to reveal how the verdict had been reached, an agreement having been made to tell nothing. A motion will be made for a new trial when the prisoner is arraigned for sentence.

Stubborn Resistance Promised.
Birmingham, Ala., March 27.—Trouble is reported in the eastern part of the county, due to a conflict between whites and blacks. Sheriff Moore has received a telegram from Governor Jelks authorizing him to call out the local militia, whenever he thinks it necessary. The seat of the trouble is at a negro colony about 12 miles east of here on Warrior river. The negroes have organized and armed themselves and are prepared to make a stubborn resistance.

Big Strike Ordered.
Lowell, Mass., March 27.—The textile council yesterday voted to order a strike in the cotton mills of this city on March 31 because of the refusal of the mill agents to grant a 10 per cent increase in wages in conformity to the wage increase at Fall River. The strike will directly affect about 20,000 operatives.

Deadly Duel.
Clayton, N. M., March 27.—A duel was fought at the postoffice yesterday between Postmaster John M. Guyer and W. E. Sears, a jeweler. Sears, who is said to have begun the shooting, was killed. Guyer, who was uninjured, is in custody.

CONGRESSIONAL

What Is Going On 'Neath the Big Dome at Washington.

Washington, March 27.—General debate on the military appropriation bill was concluded yesterday and consideration of the bill under the five-minute rule begun. During the debate Mr. Burleson (Texas) renewed the attack on Secretary Hay on account of the allegations regarding the Boer relief funds subscribed in Illinois. Mr. Hitt (Ill.) replied briefly saying there had been no developments in the matter and the secretary had done all that was possible.

Several other brief speeches were made, some in criticism of different provisions of the bill. At the beginning of the session the house passed the Burleson resolution calling on the president for information relative to the application of General Miles to go to the Philippines. At the beginning of the session of the senate the oleomargarine bill was under discussion. The debate was at all times interesting. The principal speech of the day was delivered by Mr. Dolliver of Iowa. He spoke forcefully and throughout commanded the interested attention of his colleagues and of many members of the house who had come to the senate to hear him. He scathingly denounced the oleomargarine industry, declaring that it had put itself in partnership with lawlessness and false pretenses. Mr. Dolliver concluded his speech with a glowing eulogy of farm life and of the American farmer.

Mr. Hoar and Mr. Lodge of Massachusetts explained that their reason for supporting the bill was that it was a tax on an evident fraud.

Some Inside Information.

Washington, March 27.—The statement is made in a quarter having unusual facilities for knowing the facts that the Cuban reciprocity measure as agreed upon by the recent Republican conference would have enough Republican votes in the ways and means committee to assure its being reported without the assistance of any Democratic votes. This is directly contrary to the generally understood situation in the committee, but the source of the information is such as to warrant the belief that the bill will be reported by Republican votes.

Infectious Flight.

Anandarko, O. T., March 27.—A destructive prairie fire has been burning about 12 miles southeast of here. Mrs. Hattie Hand, in company with her two small children, started to a neighbor's house to be in a safer place. They were overtaken and burned to death. The house which Mrs. Hand and her children deserted had a fire guard plowed around it and was not touched.

In McKinley's Memory.

Albany, N. Y., March 27.—A bill appropriating \$100,000 for the erection of a monument at Buffalo in memory of President McKinley was passed by the state senate yesterday. Governor Odell sent an emergency message to the legislature urging the immediate passage of the bill.

"Thousands of persons have opened accounts in the bank who had never saved up a cent before." Naturally the advertised bank reaped the chief benefit of its missionary work.

Brain Weight.

It is stated by an authority that the weight of a man's brain has nothing to do with his mental power. It is a question of climate, not of intellect. The colder the climate, the greater the size of the brain. The largest heads of all are those of the Chingatsches, who live very far north, and next come the heads of the Lapps.

HARNESS FACTORY FIRE.

That Busy Institution Meets With Heavy Loss.

About 11:30 Wednesday night fire was discovered on the first floor of the Seymour Harness Factory on North Vine street. It was burning furiously when discovered for leather is a thing that fire consumes very rapidly and makes a hot fire. The flames soon shot up the stairway and in a little while the whole interior of the factory was aflame.

The fire department responded quickly and worked heroically and effectively until the fire was under control. The firemen deserve special mention for their excellent work.

The interior of the factory on both floors was burned out and the loss on leather, harness completed and in work, harness hardware, and machinery is practically a total loss. The fire did not get into the engine room or Stanfield & Carlson's ware-room adjoining. The loss will not be fully known until after the books are examined, but it is estimated from \$7,000 to \$8,000. The amount of insurance carried was \$4,500; \$2,000 in the Scottish Union, \$1,500 in the Home of New York, \$1,000 in London Assurance.

The members of the company are getting ready to go on with their business in temporary quarters and in a day or two will probably be at work again. They have plenty of work ahead and for months the plant has been operating at full capacity.

The building is owned by T. J. Stanfield and J. J. Cobb. The floors, stairway and interior woodwork will have to be replaced. The building was insured. The origin of the fire is unknown.

A WORLD WIDE VICTORY.

The recent victories of the house of Baldwin at the Paris Exposition give to its products a value and prestige not possessed by any other American piano. The grand Prix awarded the Baldwin Piano is an honor coveted by all the manufacturers of the world, but which has never been bestowed upon any American piano except the Baldwin. The Silver Medal awarded the Hamilton pianos and organs shows the estimate of the International Jury of these Standard Instruments. The fifteen other awards [gold, silver and bronze medals, and honorable mentions], serve to emphasize the Great one, and show the high value placed upon the details of construction and the inventions embodied in these instruments.

How to Cure the Grip.

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the most serious danger. Among the tens of thousands who have used it for this, not one case has ever been reported that did not recover. For sale by C. W. Milhous druggist.

Danger of Colds and La Grippe.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by C. W. Milhous, druggist.

WATCH DOGS.

Ever On the Alert.—Alive to Every Form of Oppression.—Kept on Edge.—Burdened Beyond Endurance.—Nerves Give Out.

The machinery of a mill that grinds day and night has to shut down now and then for repairs. It is the same way with your nerves. Overwork, close application, our ways of living bring about nerve waste that sets up symptoms of various kinds. It may be failing strength, weakness, languor, headache, sleeplessness, etc. Whatever it is nerve force is lacking and the means of restoring rest with Dr. A. W. Chase's Nerve Pills. A great many people in Seymour vouch for this. Among them is Mrs. C. Mitchell, of No. 626 North Chestnut St., Seymour, Ind., who says: "I was troubled with severe nervousness, nervous headaches and felt languid and tired. I got a box of Dr. A. W. Chase's Nerve Pills at A. J. Pellens' drug store and after using the medicine I am pleased to say my nerves are steadier, the headaches relieved and I feel stronger and better every way. I think these pills a splendid nerve tonic and health builder."

Dr. A. W. Chase's Nerve Pills are sold at 50c. a box of 24 tablets or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature A. W. Chase, M. D. 423 91 87 every package.

GUESSWORK.

It is Responsible for the Prolonged Suffering of Many Women.

When a woman "doctors" for years for a complication of ailments, and gets no better she is generally set down by the local practitioner as incurable. He has reached the limit of his skill and knowledge, and he does not think more can be done than he has done. But when this sick woman is cured by the use of Dr. Pierce's Favorite Prescription, it proves that the doctor was certainly wrong in his statement of incurability. It also proves that he must have been wrong in his treatment; probably treating his patient

a girl of sixteen. I took five bottles of 'Prescription' and three of 'Discovery,' and nearly two vials of 'Pleasant Pellets' for constipation. In conclusion I will say I had taken three or four kinds of patent medicine before trying yours, which made me feel worse instead of better. I think your 'Favorite Prescription' is the best medicine on earth for women."

NO WOMAN CAN BE WRONG

In following the example of the thousands of other women who have been cured of womanly ills by the use of Dr. Pierce's Favorite Prescription. These cures cover every form of disease peculiar to women which is curable by medicine. No matter what the condition of any sick woman may be "Favorite Prescription" claims her confidence and invites a trial of its healing powers because of its many remarkable cures of other women who had found no help in other medicines and who at the best found only temporary relief from the treatment of local physicians.

The very fact that "Favorite Prescription" cures forty-nine out of every fifty women who give it the best and faithful trial is the best guarantee of its success. In the one rare case where a perfect cure is not possible, the use of this medicine will lessen pain and increase the strength. If it does not altogether remove the burden of sickness it will so lighten it that to bear it becomes easy.

"It is with the greatest pleasure I write to tell you what your medicine did for me," says Mrs. Lizzie Greer, of Laurel Bloomery, Tenn. "About eighteen months ago I first wrote to you for advice; you wrote me a kind letter and told me what to do. At that time I was very sick and had been for nine months. Had ulcers and misplacement of uterus and a stomach trouble I could not eat anything without suffering afterward. Had pains around my heart, and such smothering spells could hardly get my breath. I took six bottles of Dr. Pierce's Favorite Prescription, six of 'Golden Medical Discovery' and two vials of Doctor Pierce's Pellets. I began to get better the first day. My friends all say, 'How well you look.' I am well and do all my work, and it was Doctor Pierce's medicine that cured me."

WHAT IT DOES.

Dr. Pierce's Favorite Prescription establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It is the best tonic and nerve for weak run-down women, curing nervousness, backache, sideache, headache, and other womanly ailments, encouraging the appetite and giving refreshing sleep to the sleepless.

Special attention is called to Doctor Pierce's invitation to weak and sick women to consult him by letter free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Sometimes a dealer, tempted by the little more profit paid on the sale of less meritorious preparations, will offer a substitute for "Favorite Prescription" as "just as good." Judged by its record of cures of womanly ills, there is no other medicine just as good as "Favorite Prescription."
